

Examination criteria and guidelines – English for AI

Written exam

Students will complete a written exam consisting of four parts:

- a) **Term definition.** Explain two terms from a choice of six (**10 points**, 5 points per question)
- b) **Thematic questions** (questions on course content). 8 questions (**24 points**, 3 points per question)
- c) **Reading comprehension.** Answer four questions on a short, previously unseen text (**12 points** in total)
- d) **Essay:** approx. 300 words, 3-5 paragraphs (**24 points**).

The written exam comprises 70% of the overall grade

Presentation/Short Film/Podcast

In addition, students will also compete in pairs the presentation/examination/consideration/analysis of an AI related theme of their choice. The work will take approx. 10 minutes and can be presented either in the standard recorded PowerPoint format, as a podcast or as a short film.

The grading criteria for all three of these formats are as follows:

- Clear, coherent structure
- A clearly articulated thesis that consistently pursues a coherent line of argument to a satisfying, persuasive conclusion
- Clarity of expression
- Imaginative use of language. For example, the use of vivid, imaginative and appropriate analogies, imagery and metaphors to clarify and illustrate complex and/or abstract concepts.
- Demonstrating that you have fully understood the topic at hand, effectively communicating your interest in it, and making a meaningful contribution to the field of debate or discourse in which the topic features as an important
